WHITE ZINC PAINT,

After thorough test in Europe and the United States, has been found to retain its beauty and protective qualities longer than any other paint. For whiteness and brilliancy it is unrivaled; it is free from all poisonous properties so common and dangerous in other pirments; will cover—equal, weight—from 40 to 180 per cent more space than lead, and is, therefore, much shasper to the consumer. As an inside paint, it will not turn yellow, even when exposed the sulphurous gases of coal free or the feul air of ships. Their White Zinc ground is varnish produces the porcelain finish. Their
